Project Demonstration

PROBLEM AND SOLUTION

Problem:

Businesses need a simple way to manage employee information and track attendance.

Solution:

The Employee Management System helps managers add employees, track attendance, and generate reports easily.

LOGIN SCREEN

Managers can add new employees by entering their

information such as name, ID, department, and salary.

RECORD ATTENDANCE SCREEN

Employees can clock in and clock out. The system records the time and confirms the action.

GENERATE ATTENDANCE REPORT SCREEN

Managers select a date range and generate reports showing employee work hours and attendance data.

FUTURE IMPROVEMENTS

FUTURE IMPROVEMENTS FOR THE SYSTEM INCLUDE:

- IMPROVING THE REPORTING FEATURES
- ADDING MORE EMPLOYEE MANAGEMENT TOOLS
- ENHANCING THE USER INTERFACE DESIGN
- IMPROVING DATABASE FUNCTIONALITY
